

There are three good ways to deliver your firearm to .460 Rowland LLC for Conversion...

1) \$ Hand Deliver Your Gun to us:

- We will convert it and let you know when you may pick up your Authentic .460 or .960 Rowland® Hand Cannon.

2) \$\$ Ship Your Gun to us through your favorite gun store or dealer Via US Mail:

- This will cost you about \$18.00 plus insurance. To ship via the Postal Service you must go through your local gun dealer or FFL. Many will perform this service as a courtesy for their customers.
- Please insure your gun for its full replacement cost.
- ***A Side-Loading USPS Medium Flat Rate Box*** (available at any post office free of charge) works well for most guns in their case; a ***Top loading Medium Flat Rate Box*** will work for a gun not in a case.
- Your dealer will need the remarkably simple ***US Postal Form 1508*** (attached below), a copy of ***our Federal Firearms License ("FFL", also attached below)*** and a copy of ***your dealer's FFL***(which they will supply).
- Your dealer will present both FFL's to the postal agent and attach them to your package in a ***clear packing slip holder*** on the outside of the box (like the kind FedEx uses). Fold the FFL's so that the ***blank side shows through the clear packing envelope*** on your package to avoid suggesting the contents.
- The postal agent will stamp and sign ***US Postal Form 1508*** and give your dealer a copy for their records.

3) \$\$\$ Ship Your Gun Directly to us by FedEx or UPS Express.

- These carriers require handguns to be shipped 2nd Day air, so your cost for this option will be \$75 to \$125 depending upon where you are. Alaska and Hawaii will generally be at the high end. With this direct shipping you do not need to go through your local dealer and will not use the postal form.
- Pack up your gun securely and present a copy of the .460 Rowland® FFL (attached) to your shipper. There should be no markings on the box to indicate it is a gun. The FFL can be placed inside the box.
- Again: Please insure your gun for its full replacement cost

And that's about it!

We will return your finished conversion to your designated FFL for \$18 plus Insurance or, if you have shipped your gun directly to us using Option 3 above then your return shipping cost will be *at our FedEx cost with no additional charge*. In either case *Return Shipping* charges will be added to your invoice when it is determined. You will be glad to know we do NOT use shipping as a profit generator!

Lastly: Please ensure that:

1. *The chamber is empty.*
2. *You ship at least one magazine*
3. *That there is no magazine in the gun itself.*
4. *The chamber is empty.*
5. *The magazine (s) you ship are empty.*
6. *There is no ammunition in the box.*

7. *The outside of the package is securely taped. **Do NOT trust Government glue!***
